WMovers Editorial

WMovers was recently celebrating one year of existence ! How much we can accomplish in one year... it's simply amazing. For us, it can feel like a whole lifetime! We project ourselves in the past, remembering what we had imagined, and we look around us... **it's real !!!**

60% of our clientele already found us through referral; people simply love us. How couldn't they?! We are passionate about what we do, we train every week to make sure we are up to date, women and transgender professionals come out from all over the place to give us their support, we feel empowered and respected and we get the opportunity to encourage women and people who are in conflict by working with transitional homes for women and with our flat rate policy.

It's beautiful to see all the bridges that can be made. This newsletter wants to honour that by extending those efforts to everyone who is interested to be involved... the ways are endless.

We are ecstatic to have the opportunity to share with more of you some of our work among other local businesses, extraordinary people, inspiring groups and amazing events. We will be distributing this newsletter seasonally, see you back in the Spring!
